MEETING GOAL

This AtlantOS Ocean Hour will focus on the Volunteer Observing Ships (VOS) and how the data collected is used. This overarching questions are (1) How do we use data collected through VOS? (2) How can we increase the socio-economic impact of VOS, the larger SOT Network and beyond?

UPCOMING OCEAN HOUR

June 08th, 2021: "Carbon Uptake"

July & August: Break

September 14th, 2021: "BGC Argo"

OVERALL AIM

The Ocean Hour will provide an opportunity for community engagement as we develop the All-Atlantic Ocean Observing System. We will share ideas, progress in specific topics, use cases, projects, programs, and address issues in developing e.g. communities of practice.
